SUMMARY

I am Om Patil, a passionate web developer with a strong foundation in the MERN stack and a keen interest in building scalable, user-friendly web applications. Currently pursuing a B.Tech in Computer Science, I have hands-on experience in developing and deploying projects that solve real-world problems. With expertise in JavaScript, React.js, Node.js, and Express.js, I have built responsive and dynamic applications. My problem-solving skills are demonstrated by 100+ solved questions on LeetCode. I thrive in collaborative environments, leveraging my problem-solving abilities while continuously learning new technologies.

EDUCATION

Lakshmi Narain College of Technology Excellence   Bhopal, India
B.tech in CSE, CGPA: 7.19 /10   2022-2026

New Gyandeep Hr. Sec. School   Burhanpur, India
12th Boards, Percentage: 82%   2021-2022

EXPERIENCE

Web Development Intern   Remote
CipherByte Technologies

- Designed and deployed a landing page, implementing responsive layouts and optimized performance for cross-device compatibility.
- Created a professional personal portfolio website to showcase projects and skills, integrating modern design principles and animations.

PROJECTS

Hotel Listing Platform | Project Link

- Designed a user-friendly website enabling seamless hotel listing, searching by location/category, and review functionalities for users.
- Implemented authentication using Passport.js, enabling secure user sign-up, login, and personalized interactions.
- Enabled owners to add, edit, or delete hotel listings and provided guests with detailed reviews, search functionality, and booking options for an enhanced user experience.
- Built using Node.js, Express.js, MongoDB, and EJS, focusing on responsiveness and a modern user experience.

Weather App | Project Link

- Developed a responsive weather application using React, featuring real-time weather data fetched from OpenWeatherMap API.
- Designed an intuitive UI/UX to display location-specific temperature, weather conditions, and forecasts.
- Gained proficiency in React concepts, including state management, props, and API integration, while completing this as my first React project.
